

Workshops on the short-term rental initiative

Developing a responsible, fair and trusted single market for short-term rental services

Short term rentals are growing fast. While they offer opportunities for businesses, in particular SMEs and citizens, their rapid growth has given rise to a number of concerns.

The Commission is working on an initiative to encourage the responsible development of this new business model to offer a balanced solution for cities, peer and professional short-term rental providers and platforms.

Registration is now open for our two virtual workshops:

22 October 2021: *Enhancing transparency on short-term rentals in the EU.*

9 November 2021: *Developing a fair single market for short-term rental services*

Register now: https://ec.europa.eu/eusurvey/runner/ShortTermRentalInitiative_workshops

The workshops are open to all participants who are concerned by short-term rentals such as online platforms, public authorities, citizens and companies offering short-term rental accommodation, hotels, academia and their representatives. The event shall be hosted online but spaces are limited.
