Impulse for Urban Renewal through EU-project Smarter Together

2016-2021

Learnings from 5 years of Smarter Together in Simmering

- Face-to-face communication and trust is key
- Demonstration projects/first of its kind solutions need time, a caretaker and participation
- Interdisciplinary approach makes sense and is possible
- 5 years from the first idea to the implementation
- Additional budgets for testing innovations

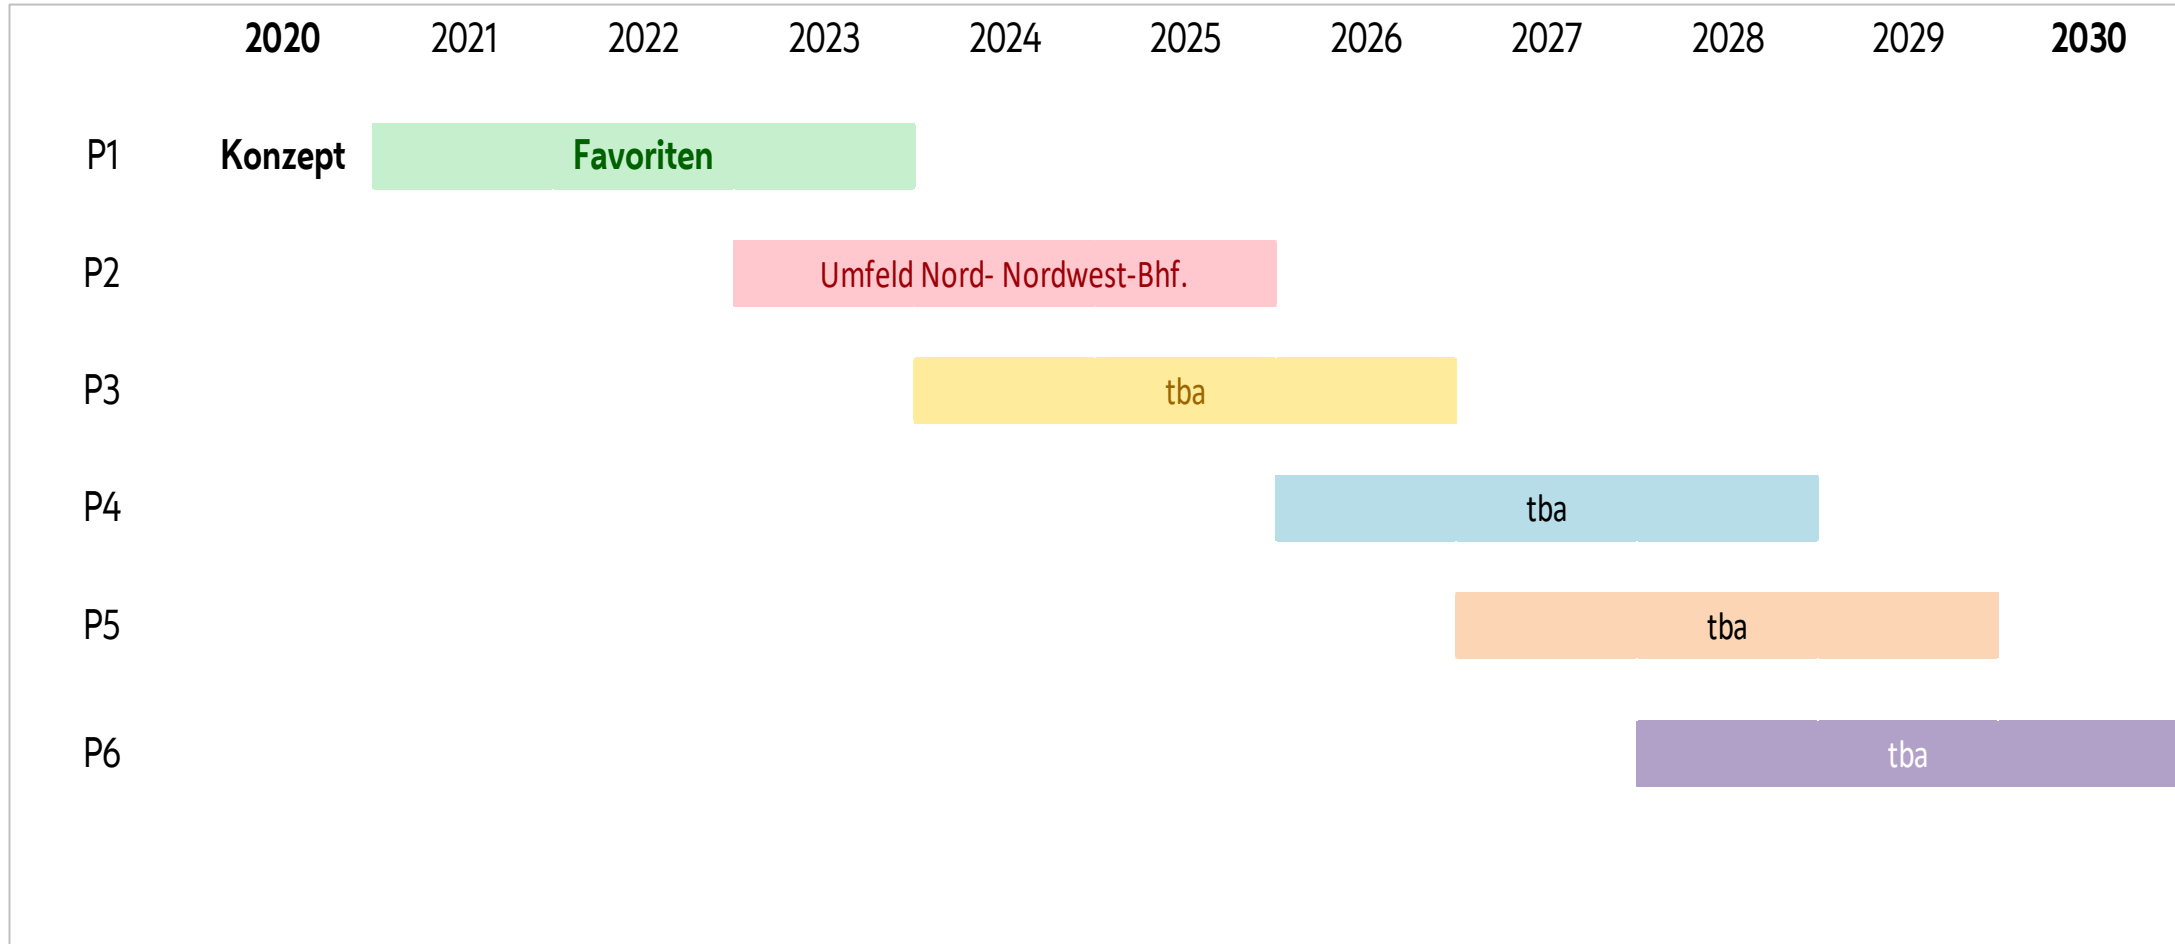

Only logical solution?

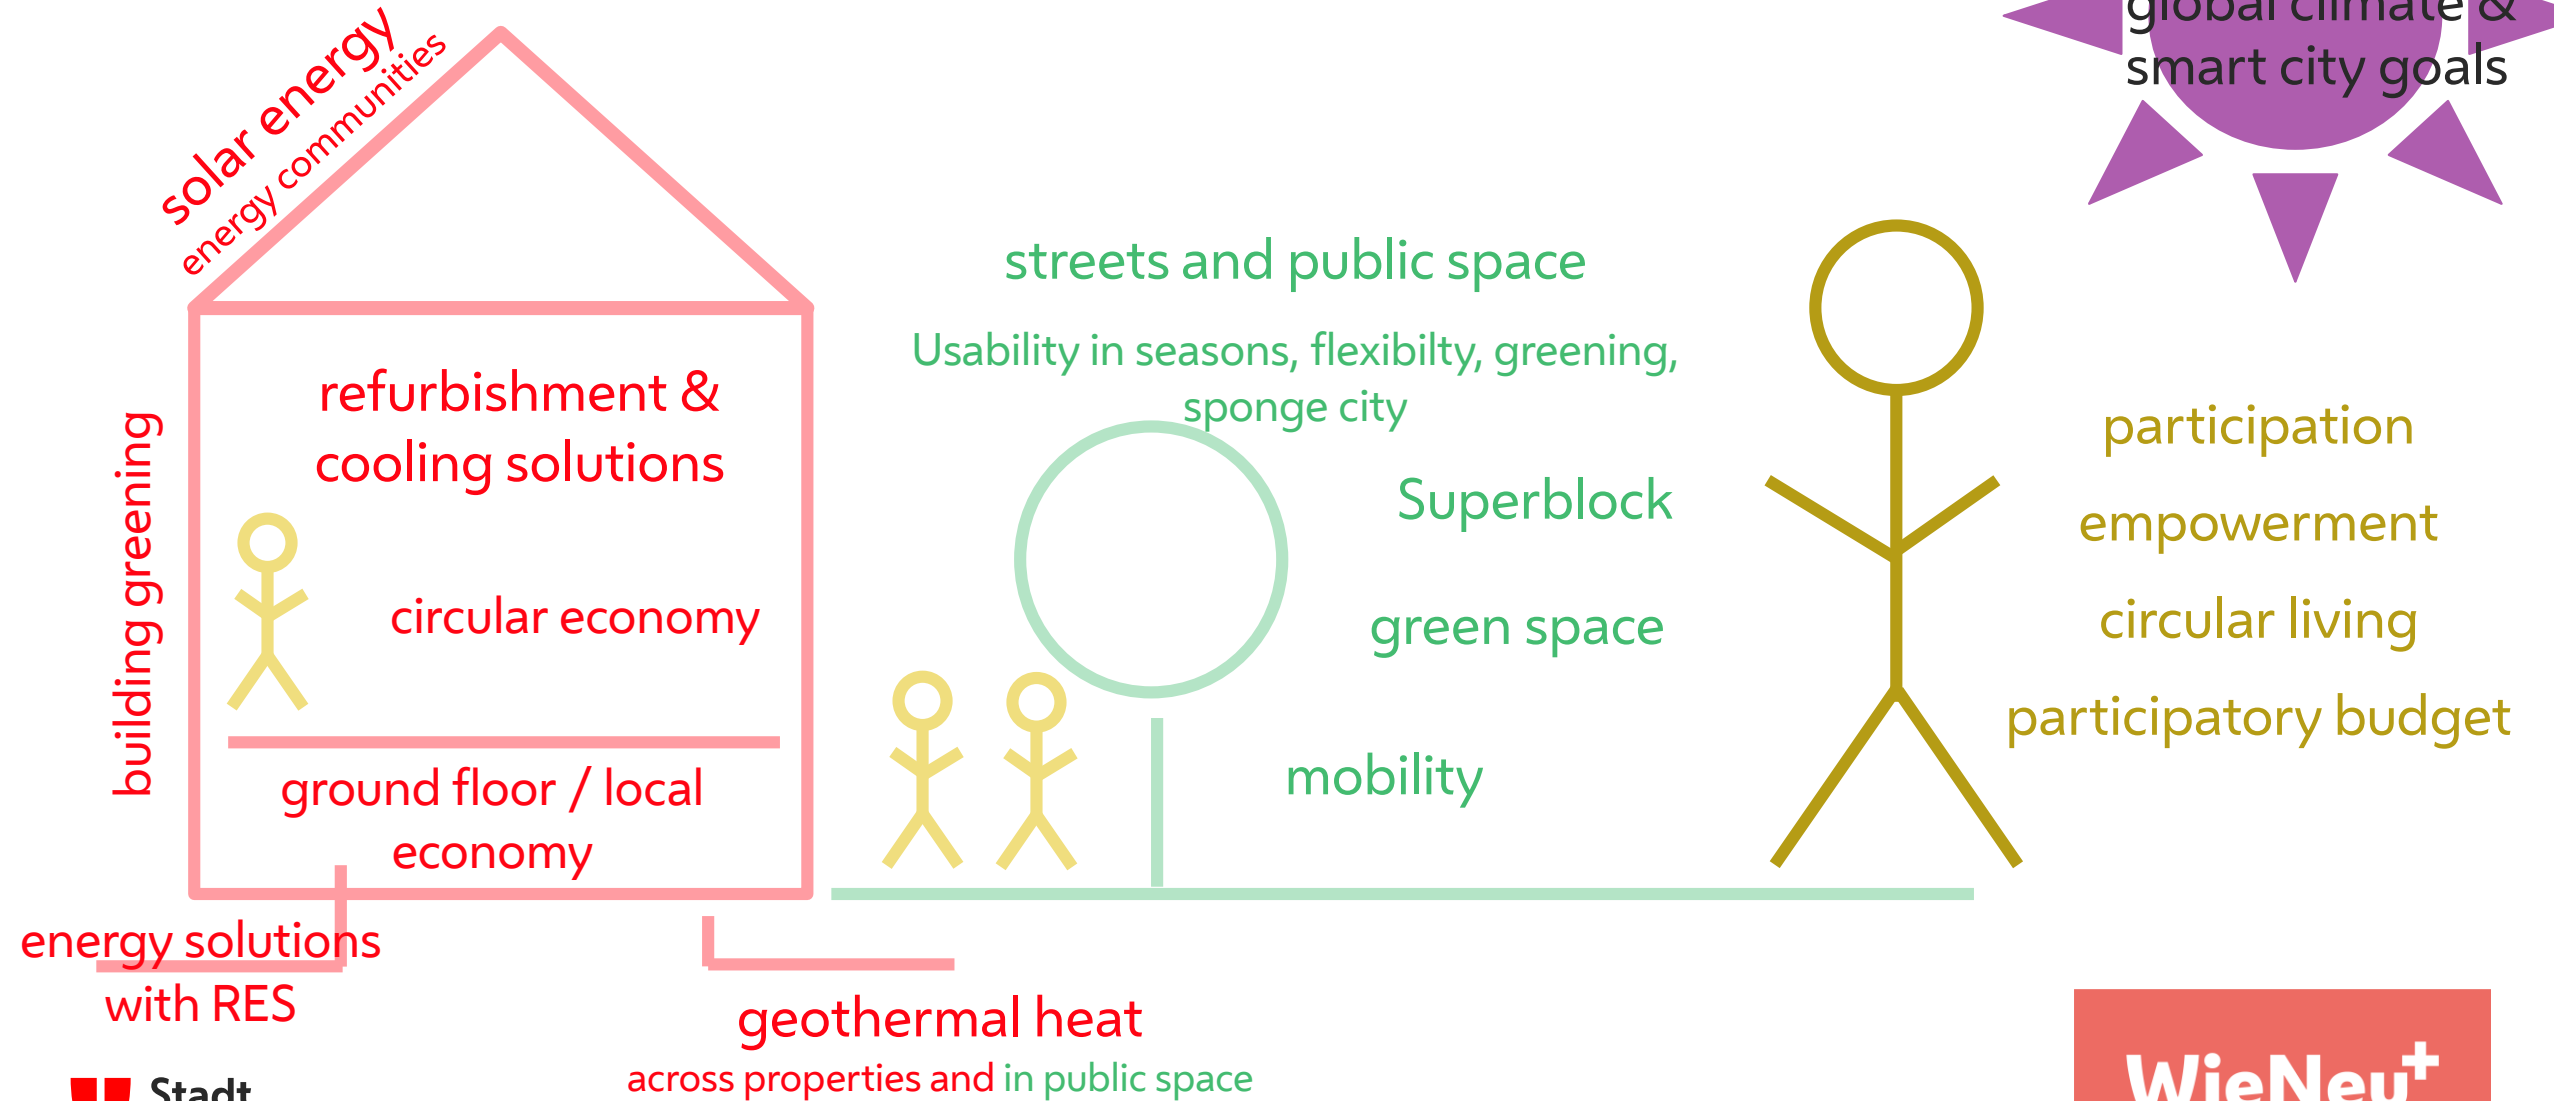

All over again  and again  and again...
